# GOLNG Gluten Free

Gluten is the protein in wheat, rye, oat and barley that cannot be digested when consumed. Gluten sensitivity can affect not only the digestive tract but also any organ or system in the body.

If you are gluten sensitive, eliminating gluten from your diet is the only solution, and it is both effective and essential for addressing symptoms and maintaining health. It is not a diet fad and it can cause a variety of human issues.

At Green Leaves restaurant, we strive to educate our staff on gluten allergies and understand why some of our customers needed to be gluten free. Special color labeling and plates are utilized at our establishment.

To eliminate almost all gluten products from other ingredients, separate utensils, cutting boards, pots, pan and areas for (GF) production are implemented. Hidden contamination areas are identified such as door handles, contaminated aprons, hand sinks, and pot holders.

In providing (GF) food on the menu, we do not compromise taste and quality.

## Disclaimer:

This menu and the information on it is provided by Green Leaves restaurant in cooperation with the Gluten Intolerance Group (GIG), as a service to our customers. Green Leaves restaurant and GIG assume no responsibility for its use and information which has not been verified by Green Leaves restaurant. Patrons are encouraged to consider this information in light of their individual requirements and needs to their own satisfaction.

Reminder: some items are cooked to order and may be served raw or under cooked. Consuming raw or under cooked meats, poultry, seafood, shellfish, eggs or MSG may increase risk of food borne illness.
